

## EXCEL EXTRA

Pada worksheet ini, tidak diberikan formula Excelnya. Santri diharapkan saling berdiskusi untuk membentuk formula Excelnya. Jika diperlukan, pengajar komputer juga ikut membantu santri berdiskusi.

### 1 - OPERATOR

| Operator |                         |                 |       |
|----------|-------------------------|-----------------|-------|
| Simbol   | Fungsi                  | Contoh          | Hasil |
| +        | Penjumlahan             | 3 + 15          | 18    |
| -        | Pengurangan             | 20 - 7          |       |
| *        | Perkalian               | 12 * 5          |       |
| /        | Pembagian               | 36 / 6          |       |
| ^        | Perpangkatan            | 2 ^ 3           |       |
| ()       | Operasi didulukan       | ( 4 + 5 ) * 3   |       |
| &        | Menggabungkan teks      | Microsoft Excel |       |
| %        | Persentase              | 20%             |       |
| =        | Sama dengan             |                 |       |
| <        | Lebih kecil             | 4 < 5           |       |
| >        | Lebih besar             | 8 > 1           |       |
| <=       | Lebih kecil sama dengan | 10 <= 11        |       |
| >=       | Lebih besar sama dengan | 29 >= 29        |       |
| <>       | Tidak sama dengan       | 7 <> 9          |       |

### 2 - KEUNTUNGAN

| Untung adalah Penjualan dikurangi Pembelian |           |             |
|---------------------------------------------|-----------|-------------|
| Penjualan - Pembelian = Untung              |           |             |
| Penjualan                                   | Pembelian | Untung      |
|                                             |           |             |
|                                             |           |             |
| Persentase Keuntungan                       |           |             |
| Untung / Pembelian = %                      |           |             |
| Untung                                      | Pembelian | %           |
|                                             |           |             |
|                                             |           |             |
| Rata - Rata Pembelian                       |           |             |
| Harga / Jumlah = Rata - Rata                |           |             |
| Harga                                       | Jumlah    | Rata - Rata |
|                                             |           |             |
|                                             |           |             |
| Rata - Rata Penjualan                       |           |             |
| Harga / Jumlah = Rata - Rata                |           |             |
| Harga                                       | Jumlah    | Rata - Rata |
|                                             |           |             |
|                                             |           |             |

| Pembelian |                     |        |              |               |
|-----------|---------------------|--------|--------------|---------------|
| No        | Nama Barang         | Jumlah | Harga Satuan | Harga         |
